REMOVAL.

The office of the "KENTUCKY YEOMAN" has been removed to the new three-story building on Main street, near the corner of St.

LPWe see that our Democratic friends throughout the State are moving with great zeal in the work of appointing delegates to our State Convention. They are calling subordinate conventions everywhere, and in the resolutions adopted there is plenty of evidence that the old fire is still burning brightly in the breasts of our friends. We can have no fear for the ultimate result, if the democracy will only act up to their original principles, and stand firm in the support of their standard bearers. We will have a second edition of the last Gubernatorial race in New York, and we opine that there will be fully as many "Richmonds in the field," all eager for the fray, and desperately ambitious of filling the Executive chair soon to be vacated by our present worthy Chief Magistrate. Who the nominees will be we cannot say; we presume, however, that the Democrats, Whigs, Abolitionists, Know-Nothings, and Temperance men, will each have a candidate, and as there are so many prominent stars in our State, we must confess that we are not sufficiently skilled in the mystic science of horos copy to be able to predict, what will "turn up" in the future by gazing at the political heaven.

There is a strong probability, however, of the Whigs and Know-Nothings forming a fusion, but even in that event, we feel confident in predicting a glorious triumph for our party, if the members will act only in the coming as they have done in the past contests, and we know they will. We fully expect a large and intelligent convention here upon the 8th of January. and we expect its deliberations will be characterized by that moderation and dignity which have ever marked them.

I Some time since the N. Y. Evening Post suggested the propriety of the Legislature of the various States, appointing some competent person to hold inquests in cases of fire, and ascertain the cause of the conflagration, in the same manner as the coroner now acts in this State in cases of death. The idea is one eminently worthy of attentive consideration, and we trust it will be acted upon immediately .-We see by our exchanges from Canada, that a petition has been presented to the principal parliament of that government, praying that some tribunal may be appointed to take cognizance of such cases of fire, as may be deemed necessa ry. This step is becoming almost imperatively necessary, from the fact that fires are becoming too numerous, and too many lives, and too much property are becoming endangered.

THE WHIG JOCKEY CLUB.—Since the head of the Whig Central Committee has taken to gambling, "under the advice of the Committee," and in the name, and for the benefit of the whig party, we suggest a few obviously changes in things. In the first place, let the Whig Central Committee Rooms be supplied with a Faro bank and a Reulette table, and let the name of the association henceforth be the "Wdig Jockey Club," of St. Louis. The necessary capital to "win on" can always be had by "assessment on

TAn English lady, Mrs. Hamilton, recently crossed the Alps, a feat never before performed by a female, though attempted by Md'lle D'Augeville, and also by a peasant girl, a native of Italy. The N. Y. Times, in recording the extraordinary feat remarks:

The age is doing much for women, but women are doing more for themselves. It is hard to say what they are not undertaking and accomplish Go where they will, men meet them in the field of open rivalry. Once, the sterner sex wrote all the books, but now the most popular literature comes from the daughters of Eve.— Once, we were safe behind the entrenchments of newspapers, we are safe no more. pulpit was ours; it is now a divided empire.— We made a final stand in pantaloons. We ral lied our fighting forces there. We defied assault behind that formidable battery. It was no use; the thing was a sham, a mockery, a failure we were beaten in the stronghold of centuries.— One hope was left us—one solitary hope. It rose high among the clouds. It was a mountain among mountains, but the Alps has been taken. Mont Blanc surrendered to a woman.

CARD FROM COL. BENTON .- We find the follow ing notice to correspondents in the St. Louis Democrat, of Nov. 18.

"Upon my arrival at this place, I find some quantity of letters here addressed to me through the St. Louis city post office, which I return to said office, and which, (if the law is complied with) will be sent to the dead letter office in Wash inches where they will seek meanly be of they ington, where they will reach me and be attended to. I had endeavored to make it known to the public that, since the late appointment of post master in this city, I do not correspond through the office—that appointment being one of those made in this State through a criminal prostitu tion of the appointing power to malignant and personal purposes, with a view to outrage and injure me; from which designs I have a right to protect myself (as far as I can) by refusing to open correspondence forwarded to this office.—But in saying this I do not mean Mr. Pierce, but the nullifiers who rule him, and who have brought things to their present pass—the harmony of the Union destroyed, the honor and peace of the country endangered abroad; and his own administration run into the ground

THOS. H. BENTON. St. Louis, Nov. 17, '54.

IFIn Accomac county, Va., a young man named James Ames had a dispute with his stepfather, and ripped open his bowels from his breast down, laid open his heart for an inch or two hen propped him up against the fence and cut his throat from ear to ear, and was convicted in a court for murder in the second degree, and was sentenced to 18 years imprisonment. Hon. Henry A. Wise defended him, and saved his life by one of the most thrilling appeals ever listened to.

The amount obtained by Ackley is not known.

again trespassing upon your indulgence, or claiming another hearing of the people upon a abject that appears to enter largely into their dgment, and forms no small part of public family is trivial and transient; but when sociees and nations become disturbed, there is no leculating the calamity or the consequences.— In this state of affairs every one has a duty to perform, and, failing to discharge his obligations, he cannot acquit himself of the responsibility, be his condition or position in society what it may.

At this time, when the republic is disturbed in all its members, when ambition and the pride of power threaten to overthrow the estabshec and settled institutions of our happy country, founded in revolution and cemented in blood, when fanaticism without cause, and bhrensy without discretion threaten to overwhelm the conservative portion of the people, who have always preserved the equilibrium of the government, and protected it from the inva-sions of the turbulent and dissatisfied, these obgations are doubly increased. Of the republic we need hardly despair, because the people love their constitution and their liberties; and around em now, as around the standard that proclaim ed them first, the people and the friends of liber-ty everywhere would rally, and upon their altar ould offer up their lives a free and willing sac-Nor need we apprehend that the politico-religious rage that sweeps and scours our country will be of long duration, or fraught with any great mischief, because we have yet a consti-tution 'protecting all alike, and granting favors to none; and the people will protect it until it gives place to another, which is not probable; for although we have but few men of the revolutionary stamp, still the mouument of their glory will be preserved by their children as their own defence, and as a beacon light to down-trodden and op-pressed liberty in the world! Nor yet do I look or a long continuance of this alarm or fear, exited for sinister or unworthy motives by constantly appealing to the passions and prejudices of our nature, instead of the higher and nobler attributes of dignified and enlightened man.

I do not propose to accuse any, but certainly that which is called *religion* has had much to do with exciting and fostering the sentiment of prejudice upon which it is based; and in its zeal to do good I hope it has not forgotten the cardinal principles, to have charity and to love our neighbor as we do ourselves; and, moreover, it has not in the result of doubtful the cardinal principles, to have charity and to love our neighbor as we do ourselves; and, moreover, it has not when the cardinal principles, to have charity and to love our neighbor as we do ourselves; and, moreover, and the control of the con t has made its mission in this world of doubtful character, especially with those it should have directed and led to heaven! This system of terrorism will be short-lived, for fear is the most transient of all the passions. It is the warning that nature gives for self-preservation; and when we are satisfied there is no danger, the warning suscless and nature does not give it. The pres-ent alarming discontent, then, will and must anish; the good will be separated from the badntentioned, because every man must see that public tranquility and domestic peace can alone give all the enjoyment of rational liberty; and o preserve these, the people, every one of them, nust have their due place in the State, where he constitution and the laws have placed them.

The cause of this alarm, sir, is a legitimate subject of inquiry, and one upon which every ndividual should reflect and be convinced.— Let us, then, be candid; let us be just; let us not wrong ourselves or our neighbor; let us not give wrong ourselves or our heighbor; lee us not give such sad tokens of fear, or subject ourselves to the ridicule of the world! Let us have evidence upon the subject about which there appears to be so much concern; let us have good testimony, not the 'ipse dixit' of any one, whether priest, or parson, or layman, but the record of history and of penal laws enacted to punish and torment one another in the name of religion and of God! I am no advocate of any one religious order, nor the apologist of any sect. I would not claim for my own persuasion one immunity not sanctioned y an equal constitution and just laws. I ask only 'religious liberty;' and what I would wish for myself I would most cheerfully give to every creature that bears upon his countenance the image of a common Creator and a just God.
I am not to speak for her who has been called

'the scarlet colored' wanton, whether she sits upon the seven hills that overlook the Tiber, or in the embrace of royalty sits enthroned upon the Thames, with her crown of despotism and oppression upon her head, forging chains for the whole world, or making yokes for the people's necks! Nor yet do I speak for her while she would be established upon the banks of our own beautiful Hudson, or Delaware, or Ohio, or Misissippi, or upon the Potomac, while it rolls it hallowed stream to the sea, made so by the ashes of him who was first in war, first in peace, and first in the hearts of his countrymen, and who is justly called the Father of his Country!' No, I am not; for who would wish to witness the illicit intercourse, the adulterous union of Church and State? Who desires to have the constitut torn away that has pronounced an eternal di-vorce between them? Should madness and infatuation so far prevail as to restrict the belief of any one, or stiffe the promptings of conscience, or punish, by denying the natural, constitution-al rights protected by our laws, what denominaion of the fifty different ones in our country will laim the ascendant or the divine right to rule r how will the question of preference be settled mong the sons of Levi, that desire to send men Heaven by sanction and authority of law?

The folly of the mythological giants that blaced 'Ossa on Pelion' may indeed be pardoned on account of their ignorance or conscious strength and so might the greater folly of those who undertook to raise towering Babel to the skies; still each had its merited chastisement from insulted Heaven! But the folly of those who would destroy our constitution or strip it of its charms, or countenance the proscription of any person for his political or religious belief, and grant necessarily protection to others at the expense of the general good, finds no parallel among any people of any age of the world; and so great an outrage would be surely punished by that God of infinite justice as well as of infinite processor of present But nercy, and who is no respecter of persons! But lowever great the outrage, it is urged by some as matter of expediency to protect them. a matter of expediency to protect them against their Catholic friends and neighbors who are conspiring against the liberties of the country and the lives of the people! Indeed, one would think that the age of Otis Plots and Meal Tub Plots had come again to curse the world! All the old stories of 'blood and bones' are revived, and thinks are tabled about that would reveal and things are talked about that would reproach the age of witchcraft!

Catholic wife will wake up in the morning and find his throat cut by her, or the wife will find herself murdered by her cruel husband—poor thing! And if God has blessed their union with children, The ill-fated man who has the misfortune to have a there is no telling what will become of them unless they are 'divided' according to the principles of the ancient judgement, and given to the friends of the parents that still survive a general and indiscriminate massacre! From a contemplation so ridiculous I turn away with confidence in the good sense of the people, retaining but few of the errors or follies of the past, whose justice and discretion will prevail over whatever of misapprehension may now exist!— To complete the volume of delusion, it is said the Pope is coming to establish himself here; and it is further urged, and believed by manyby thousands of honest and well-meaning men that the Pope claims the temporal allegiance of all Catholics, and that they give it as his prerogative as spiritual head of the Catholic Church!

Mr. Editor, this is the greatest error in the world! I could cite from impartial history hundreds of cases to disprove the assertion; indeed, there is not an instance to be found to support the imputation. At this time I will only give Catholics, about which there has been such an olic fellow-Christians! In short, I invite all tution, and robbed of their liberties! This cruel ordeal is erected and passed by a whole people that they may be slaves in the land of their fathers, of which they had been robbed by a

despotism the most crushing on earth, and under the solemn mock robe of religion!

Permit me to say in this place, that the Catholic church requires all her children to give their allegiance to the country of their birth or their adoption She teaches them that country has a stronger claim upon them than their families: and that they can have but one country and one allegiance, and that wherever they live that is

allegiance, and that wherever they live that is their country.

In this connection, also, let me quote from a work of undoubted authority in the Catholic church, entitled "Tractatus de Ecclesia."

They state "Christ had not granted to St. Peter, direct or indirect, power over the temporal concerns of kingdoms; that by the kings and emporal establishment. perors alone the supreme temporal establishment of them ought to be held; that the declarations of pontiffs were not to be considered as infallible, or oints of faith which it was necessary to salvation

The Catholics of Ireland, as well as those of other parts of the British empire, take the following oath after the oath of allegiance, 33d

I, A B, do hereby declare that I do profess

the Catholic religion."

"I, A B, do swear that I do abjure, contemn and detest as unchristian and impious, the principle that it is lawful to murder, destroy, or my ways injure any person whatsoever, under pretence of being a heretic; and I do de-lare solemnly before God that I believe that no act, in itself unjust, immoral, or wicked, can ever be justified or excused by or under pretence or or that it was done either for the good to th church or in obedience to any ecclesiastical power whatsoever. I also declare that it is not in article of faith in the Catholic church, neith er am I thereby require to believe or profess, that the Pope is infallible, or that I am bound to obey any order in its own nature immoral, though the Pope or any ecclesiastical power should issue or direct such order; but, on the contrary, I hold that it would be sinful to pay any respect or obedience thereto. I further de clare that I do not believe that any sin whatev er committed by me can be forgiven at the mere will of the Pope, or any person or persons whatsoever; but that sincere sorrow for past sins a firm sincere resolution to avoid future guil and to attone to God, are previous and indispensable requisites to establish a well-founded ex pectation of forgiveness; and that any person who receives absolution without these pr requisites, so far from obtaining thereby any Ire mission of his sins, incurs the additional guilt foviolating a sacrament. And I also swear that I will defend to the utmost of my power the set tlement and arrangement of property in this country as established by the laws as now in being; and I do hereby disclaim, disayow, and solemnly adjure any intention to subvert the present church establishment, for the purpose of ubstituting a Catholic establishment in its stead and I do hereby solemnly swear that I'will no exercise any privilege to which I am now or may become entitled, to disturb or weaken the Proestant religion and Protestant State establish ment of the British empire. So help me God!

This, sir, is the requirement of the corrupt and aggressive Church and State establishment in the British empire of her Catholic subjects that she may feel herself safe in her regal wicked ness. This is a specimen of a monster under whose oppressive weight all the Protestants of Britain as well as the Catholics have groaned! This oath of abjuration is required only of the Catholic dissenters. Their religion teaches them to obey the laws and support the constitution, and peril even life itself in defence of the country and hat adoption of their birth, and they willingly take the oath refuting the imputations fals ly made against allegiance and faith. And should the evil day ever dawn upon our equal and fr ee country when a corrupt churc establishment, claiming privileges not war-ranted by justice and the principles of equal rights to the Catholic will be willing to take such an oath, if his life of devotion to the country in peace as well as war will not secure against the exactions of an unjust and cruel gov-

A KENTUCKY DEMOCRAT.

Highly Important from Washington—Reconstruc-tion of the Cabinet—Mr. Marcy Going to Eng-land—Mr. Cushing to be Secretary of State— Our Foreign Ministers, etc.

Washington, Nov. 20-8 P. M. I am enabled to state upon unquestionable authority that the President has determined up on a reconstruction of the Cabinet as soon afte the meeting of Congress as possible, say the mid dle of January. Mr. Marcy will resign, and Messrs. Campbell and Guthrie will go out. Mr. Breckinridge of Kentucky, will be made Attorney General, and Mr. Cushing will take the State Department. Mr. Dobbin will be transferred to the Treasury Department. The other positions have not yet been determined upon.

Mr. Buchanan having officially notified the President of his intention of returning home in the spring, Mr. Narcy is to go to England as Minister. This will of course, dispose also of Mr. Sickles. Mr. Mason who is very desirous of being recalled from France, will probably be of-

fered a seat in the Cabinet, though this is un Having determined upon a reconstruction of is Cabinet, the President will also make an en tire change in the foreign appointments, ing Soule, Belmont, Seymour, &c. It is believed that the amount of patronage which he will thus

been agreed upon to the extent I have above stated,—N. Y. Herald. Our readers will recollect that the telegraph announced the rumors mentioned in the letter above a few days since. We do not know what credence is to be attached to the letter, but if the change spoken of is made, we predict that the change spoken of is made, we predict that the Union will have as good an Attorney General as it has ever had. We cannot believe scarcely any of the political reports that originate in the with MADAME DE VRIES, thus presenting

for political purposes. Hogs.—Since our last we have heard of no mportant transactions in this section. Some of our citizens have made engagements as \$3,50 per hundred net, and one or two have engaged at 4 net, and we did hear that one man had engaged at 6. The weather is now too warm for killing, and buyers are not anxious to make engagements. The prospect for a change in the money market is very flattering, which may tend to make the figures higher.

In Louisville prices have gone up to 5 net, and the prospect is favorable for still higher figures. Other markets are still down. Below we give all the information we have been able to gether upon the subject.—Green River (Elkton) Whig, 23d.

Hogs.-Hogs are still selling in our market at \$4 net, for corn-fed which we presume will be the prevailing price. We heard, however, of some being offered at 3 50, but did not learn the The prevailing prices at Louisville are 4 25 to 4 50 on time, with no cash sales.

IMPORTANT ARREST.—It will be recollected that about the last of October, S. D. Scoville, as officer of the Marine Bank of Savannah, Ga. absconded from that city with \$10,000 in notes of the bank. He fled, it seems to this city, and resterday officer Cozzins arrested him, and fo in a carpet bag which he had deposited at a store in this city, between eight and nine thous and dollars. This money was all in the original packages. Scoville was boarding at the Planter's Honse, under the assumed name of Lewis, and had been been here for several days. St. Louis Republican, Nov. 20.

A SAD ACCIDENT.—A son of Mr. G. A. Sugg, sheriff of this county, about 12 or 14 years of age, accidentally shot a negro boy about 13 years of age, on Saturday last, while projecting with one of Allen's revolvers. The ball struck the negro on the cheek and ranged downward, killing him instantly.—Henderson Courier.

A LAST TRIBUTE TO ELVIERE .- Bright, beau tiful and gifted one, thou art gone - thy earthly career is o'er! No more will thy bright eye beam on us, or that smile of joy welcome our approach. That soft and silver voice no more will sound upon our ear—it now is still; yes, forever on this cold earth. Many hearts didst hen gladden with thy sunny smile, for all who knew thee loved thee. Thou wert like a bright and beautiful flower, for thou didst but bud and blossom, but 'ere thy summer was o'er thou wast transplanted to a brighter and more beautiful garden than this cold world possessed; for if the good pure and of heart are blessed, thou art ow in Paradise, and that voice so dear to us ere below, doth join with the angels in their Heavenly choir, as they mingle round the throne of our Heavenly Father. Erysipelas Cured by the use of Dr. Guysott's Extract of Yellow Dock and Sarsaparilla:

Scott Township, Vandenberg eo., Indiana, July 4th, 1853.

J. D. Park—Dear Sir;—It is with great pleasure write about the very happy effects of your Dr Guy sott's Extract of Yellow Dock and Sarsaparilla, upon my daughter, who has been suffering under that dread fall disease of Erysipelas, with which she was attacked in 1848, and she was attended by some of our most skillful physicians for over eight months perseveringly, with out any beneficial effect whatever. She became redued to a perfect skeleton. She had ulcers from her shounder to her knees, which continually discharged offen sive matter. Her physicians pronounced her ease hope eas, and beyond the reach of medicine. My neighbor and myself thought her dissilution near at hand. On of my neighbors insisted on my trying 'Dr. Guysott Extract of Yellow Dock and Sarsaparilla,' as a lest resort, for as all of our physicians had given her up, there could be no detriment in it. I consented to do so more from restless desire te do something for my daughter while life lasted, than from any hope of her getting relief. So I commenced using the medicine according to directions, and to my great astonishment, she commenced improving, and before she used eight bottles she was ableto walk out. She used in all twelve bottle os Dr. Guysott's Extract of Yellow Dock and 'a saparilla,' which restored her to perfect health, in Dc. 1852. She is now entirely free from any vestige of the complaint.

THE CHEST.

SIR ASTLEY COOPER, BART., M. D. THE EMINENT MEDICAL PRACTITIONER,
Has left a valuable Legacy to the world in his
Great Preventative of Consumption.

Unfailing Cure for Pulmonary Diseases without the use of Medicine.

Sir A. C., Bart invented and advised the use of the MEDICATED FUR CHEST PROTECTOR

MEDICATED FUR CHEST PROTECTOR

TO all persons of all ages and conditions, as a certain
and safe shield against those fearful diseases, Con
sumption, Bronchitts, Asthma, Coughs Colds, andother
afflictions of the Lungs, which arise from the expose,
state of the chest, according to fushion, and the contied changes of our climate.

"The Protector" is simply a chemically prepared
lined with silk and psdded, which, suspended from the
neck, covers the chest in so agreeable a manner that
once worn, it becomes a necessity and a comfort.

"The Protector," although but recently introduced
into America, is making rapid progress through the
United States, the Casadas, South America, and the
West Indies. It has for a long time been a staple article in England and on the continent of Europe, while
it has grown in many countries to the position of an
article of dress. To demonstrate these facts, enquire
of any English resident in your vicinity, of his knowl
edge of the beneficial effects of wearing the Prote ctor
without recourse to doctoring of any kind.

The cost of wearing these articles is a mere trifle, and one will last some years. No one who values the health of himself or his family will be without them. The Hospitals in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co., of London and Manchester, England, were originally entruited with the manufacture of the Protectors, by the lamented Dr. Cooper, and continue to manufacture according to to his original instructions and therefore recommend those who would wear the "Protectors," to see to their being genuine.

The Hydromagen is a valuable discovery for protecting the feet from damp or cold, and therefore a preventative of many Lung Diseases, with kont any doctoring whatever. The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its medicated character is a powerful antidote to disease.

For gentlemen it will be found agreeable, warm, and healthy, to wear in the coldest or rainies weather, as the foot cannot become wet if the Hydromagen is in serted. Ladies may wear the lightest soled boots or shoes in the most inclement weather with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They antirely supersede over-shoes, as the latter cause the feet to prespire in a very unhealthy manner; and besides, are not dangarous wear to pedestrians in icy weather, like india rubbers. While the latter cause the eet to appear extremely large, the Hydromagen, being a thin slice of cork prepared, peculiarly placed inside, does not increase the size of the boot, or cause the foot to appear untidy. ASTONISHING CURE OF SORE LEGS, AFTER NINE YEARS

Copy of a Letter from Mr. W. J. Langley, of Huntsville, Yadkin county, North Carolina, U. S., dated November 1st, 1853.

To Professor Holloway,

Sir.—It is not my wish to become notorious, neither is the letter written for the mere sake of writing, but to say, that your o'intment cured me of one of the most dreadful entaneous diseases that flesh is heir to, and which was considered by all who knew me, to be entirely beyond the reach of medicine. For nine years I was afflicted with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine I had ever heard of, I resigned in despair all hope of being cured; but a friend brought me a couple of large pots of your Ointment, which caused the sores on my legs to heal, and I entirely regained my health to my agreeable surprise and delight, and to the astonishment of my friends. To Professor Holloway. 28, Corner of Ann and Nassau streets, N. Y

Dear Sir:—It is with heartfelt gratitude I have informed you that by the use of your Ointment and Pills the life of my wife has been saved. For seven year she had a bad breast, with ten running wounds, (no of a cancerous nature). I was told that nothing could save her: she was then induced to use your Ointment and Pills, when in the short space of three months they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres street, New Orleans, I send this from 'Hotel des Princes,' Paris, although, I had written it at New Orleans, before we finally left, at that time, not knowing your address at New York.

THE AMERICAN'S FRIEND! HOLLOWAY'S PILLS!

To the Ctizens of the United States:

I must humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans the most lively sympathies, so much so that I originally compounped these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York.

Purification of the Blood-Liver and Billious Complaints.

Billious Complaints.

The Citizens of the Union suffer much from disorders of the Liver and Stomach; scarcely any are free from the influence of these destructive maladies, hence life wears fast. The fair sex, perhaps the most handsome in the world, up to a certain period when, distressing to say, many loose their teeth and good looks, while yot in the heyday of life, such sad evils may be effectually remedied by continually keeping the blood pure, and the Liver and Stomach in a healthy action, when life will flow smoothly, and resemble plants in a congenial clime, where an eternal spring appears to reign. As it regards the preservation of the human frame, and the duration of life, much may be effected, and I say fear-lessly that health and life can be prolonged for many years beyond their ordinary limits, if Holloway's Pills are taken to purify the blood according to the rules laid down for health contained in the directions which accompany each box.

HOLLOWAY'S PILLS.

Copy of a Letter from Captain John Johnson, Astor House, New York, dated January 5th 1854.

To Professor Holloway, 38, Corner of Ann and Nassau Streets, New York.

Sir.—It is with the most heart elt pleasure I have to inform you that I have been restored to health and strength by taking your Pills. For the last ten years, I suffered fr... a derangement of the Liver and Stomach, and was reduced to such an extremity that I give up my Ship, never expecting to go to Sea any more, as I had tried every Remedy, that was recommended to me but all to no purpose; and had given myself up to despair, when I was at last recommended to take your Pills. After using them for three months, the result is that I am now in better health than I have been for eleven years past, and indeed as well as ever I was in my life. You are at liberty to make this known for the henefit of others. I remain, Sir, yours respectfully, (Signed) JOHN JOHNSON.

READ! READ! READ!

Philadelphia Redical House, Established 20 years ago by DR. KINKELIN, corner Third and Union streets, between Spruce and Spi Philadelphia, Pa. INVALIDS! Are apprised that Dr. KINKELIN confines his practice to a particular branch of Medicine, which engages my undivided attention. He cautions the unfortunate against the abuse of mercury; thousands are annually mercurialized out of life. Recent affections are prompt-

extinguished.
TWENTY YEARS EXPERIENCE. I'WENTY TEARS EATERCHOOL.

In the treatment of a class of disease hitherto neglected and imperfectly understood, has enabled Dr. KIN KELIN, (Author of a work on Self Preservation) to prove that nine tenths of the causes of nervous debility local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality.

misery and premature mortality.

TAKE PARTICULAR NOTICE. There is an evil habitsometimes indulged in hy boys, in solitude, often growing up with them to manhood, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unuccountable feelings, and vague fears in the mind. The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this st caused by his early follies. These are considerations which should awaken the attention of those similarly situated.

MARRIAGE

Requires the fulfilment of several conditions, in order

to have your unstrung and relaxed organization rebraced, revivified and strengthened.

REMEMBE?

He who places himself under Dr. KINKELIN'S treatment may religiously confide in his honor as a gentleman, and rely upon the assurance, that the secrets of Dr. K's patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one who from education and respectability, can-certainly befriend you.

Too many think they will concest the secret in their own bearts, and cure themselves. Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

Strictures of the urethra are rapidly removed by the application of a new therapeutical agent, used only by Dr. K. Weakness and constitutional debility promptly cared, and full vigor restored.
